To REMOVE paint splashed upon win-

dow-panes, use a hot solution of soda and soft flannel.

AFTER taking up a carpet, sprinkle the floor with very dilute carbolic acid before sweeping.

If you have been picking or handling acid fruits, and have stained your hands, wash them in clear water; wipe them lightly, and, while they are yet moist, strike a match and shut your hands around it so as to catch the smoke, and the stain will disappear.

To Stop Bleeding,—It is said that bleeding from a wound on man or heart.

To Stop Bleeding,—It is said that bleeding from a wound on man or beast may be stopped by a mixture of wheat flour and common salt, in equal parts, bound on with a cloth. If the bleeding be profuse, use a large quantity, say from one to three pints. It may be left on for bours or even days if progressive. on for hours, or even days, if necessary.

on for hours, or even days, if necessary.

Apple Snow.—Roast eight tart apples and pulp them through a seive; take one-half pound of the pulp, and, when cold, mix with it one-half pound of finely-sifted loaf sugar, and the thin rind of a small lemon; beat the whites of three eggs, whisk all the ingredients together to a fine froth, and pile on a glass dish. A little sponge cake soaked in fruit syrup and laid on the bottom of the dish is an improvement.

CHARLOTTE BUSSE.—Line a plain mold.

CHARLOTTE RUSSE, -- Line a plain mold Charlotte Russe.—Line a plain mold with sponge cake cut to fit exactly, brush over the inside, very lightly, with the white of an egg, and put it upon ice. Beat up one pint of rich cream with one ounce of isinglass (previously dissolved in sufficient water to cover it). Sweeten and flavor to suit the taste. Pour this into the mold, cover it with a peice of sponge cake cut exactly the size. Tee it, and turn it out very carefully.

ICED CAKE. - Mix thoroughly one half pound of flour, one-half pound ground rice, currants, one-quarter pound sugar, one quarter ounce mace and cloves, some mixed peel, a few bitter almonds pounded, some sweet almonds split, one teaspoonful of carbonste of soda, melt one half pound fresh butter in pint of warm milk, and the yelks and whites of four eggs beaten separately; put this by degrees on the dry ingredients, beat well; put into a buttered mold, and bake.

well; put into a buttered mold, and bake.

Chocolate Cream.—Scrape two equares of chocolate and put them into a stewpan with two onness of sugar, a pint of milk, and half a pint of cream; let it boil until a third of it is consumed, and when half cold beat up the yelks of six eggs with it; strain the whole through a serve, and then put the small cups or dishes-in which the cream is to be served into a pan containing enough boiling water to reach above half way up the cream. Cover the pan, and lay fire on the lid; boil it till done, and serve cold.

Onions (to Pickle).—Choose small

Onions (TO PICKLE).—Choose small button onions; as they are peeled throw Onions (To Pickle).—Choose small button ontons; as they are seeled throw them into milk and water, drain them from this when they are all done, put them into a jar and pour a strong brine of salt and water and a small piece of alum (boiling hot) over them, cover rlose, and set them aside till the next day; drain and dry on a cloth, put them into cold distilled vinegar with a faw blades of homes ginges, some whole person and a little mace, keep always govered with vinegar, cork the jar close, and put in a dry, cold place.

Remeny for Chouge parits of turpentine is a sovereign of salt with it, and place it on the throat and chest, and send for your family physician. If the case be very urgent, and the child in great distress, and the distance to the doctor's residence very great, drop three drops of the turpentine on a lump of sugar and give it internally. Or a good emetic of blood-root, or lobelia, or both combined, should be given. Every family should keep a bottle of spirits of turpentine in the house.

The bloom, or glaze, or facing of green and black that is constituted.

The bloom, or glaze, or facing of green and black tea is generally artificial. In the case of green tea it is ordinarily a mixture of Prussian blue, tumeric, and sulphate of mime, or China clay; and in that of black tea it is not unfrequently a coating of black lead. The tea prepared for the English market is notoriously subject to these adulterations; and it seems that this arises entirely from our own fancy, and not from any desire on the part of the Chinese to pursue such a practice. The adulteration is easily discovered by treating the tea with cold water, and then straining through muslin, and al-lowing the sne powder to subside.

To Preserve Mine. - Provide bottles, which must be pariectly clean, sweet and dry. Put the milk warm from the and dry. Put the milk warm from the cov into these bottles, and, as they are fined, immediately cork them up and fasten the cork with wire. Then spread a little atraw on the bottom of a boiler, on which place the bottles, with straw between them. Fill it up with cold water. Heat the water, and as soon as it begins to boil draw the fire and let the whole gradually cold. the whole gradually cool. When quite the whole gradually cool. When quite cool take out the bottles, pack them away in sawdust and put them in a cool place, but where the milk will not freeze, Mik preserved in this way will keep perfectly sweet for years.

To Chystandize Flowers, - Construct rothystaldize Flowers.—Construct some baskets of fancy form with pliable copper wire, and wrap them with gauze; into these tie to the bottom violets, ferns, geranium leaves—in fact, any flowers but full-blown roses—and into them in a solution of alarm-one sink them in a solution of alum—one pound to a gallon of water—after the solution has cooled. The colors will be solution has cooled. The colors will be preserved in their original beauty faster than from a hot solution. When you have a light covering of crystals that completely cover the articles remove the basket carefully and allow it to drip for twelve hours. These baskets make a beautiful parker ornament, and for a long time preserve the freshness of the flowers.

guided by strings around picture frames, twining through mantel orna-ments over the cloak, adding beauty and cheerfulness to the room. It can be placed in any part of the room, as it is not necessary that the sun should shine on it, and the vine will grow all winter in water.

CURE FOR DRUNKENNESS.—There is a curious prescription in England for the cure of drunkenness, by which thousands are said to have been assisted in recovering themselves. The recipe came into notoriety through the efforts of John Vine Hall, father of Rev. Newman Hall and Captain Vine Hall, com-mander of the Great Eastern steamship. He had fallen into such habitual drunkenness that his utmost efforts to regain himself proved unavailing. At length he sought the advice of an eminent he sought the advice of an eminent physician, who gave him a prescription which he followed faithfully for several months, and at the end of that time he lost all desire for liquors, although he had for many years been led captive by a most debasing habit. The recipe, which he afterward published, and by which so many have been assisted to reform, is as follows: "Sulphate of iron, 5 grains; magnesis, 10 grains: reform, is as follows: "Sulphate of iron, 5 grains; magnesia, 10 grains; peppermint water, 11 grains; spirit of nutmeg, one drachm—to be taken twice a day." This preparation acts as a tonic and stimulant, and so partly supplies the place of the accustomed liquor, and prevents that absolute physical and moral prostration that follows a sudden breaking off from the use of stimulating breaking off from the use of stimulating

Arab Horse Maxims.

Whose raiseth and traineth a horse for the Lord is counted in the number of those who give alms day and night, in private as well as public. He will find his reward. All his sins will be forgiven him, and never will any fear come over him and dishoner his heart. Let your colt be domesticated and live with you from his tenderest age, and when a horse he will be simple, dooile, faithful and inured to hardship and faithful. and fatigue.

If you have your horse to serve you on the day of trial, if you desire him then to be a horse of truth, make him sober, accustomed to hard work and inaccessible to fear.

Do not beat your horses, nor speak to them in a loud tone of voice; do not be angry with them, but kindly reprove their faults; they will do better there-

angry with them, but kindly reprove their faults; they will do better thereafter, for they understand the language of man and its meaning.

If you have a long day's journey before you, spare your horse at the start; let him frequently walk to recover his wind. Coulinue this until he has sweated and dried three times, and you may ask him whatever you please, he will not leave you in difficulty.

Use your horse as you do your leathern bottle; if you open it gettly and gradually you can easily control the water within, but if you open it suddenly the water escapes at once, and nothing remains to quench your thirst. Never let your horse run up or down hill, if you can avoid it. On the contrary, slacken your pace. "Which do you prefer," was asked of a horse, "ascent or decent?" "A curse be on their point of meeting!" was the answer.

Make your horse work and work sgain. Inaction and fat are the great perils of a horse, and the main cause of all his vices and disease.

Observe your horse when he is drinking at a brook. If in bringing down his head he remain square, without bending his limbs, he possesses sterling qualities and all parts of his body are built symmetrically.

Four things he must have broadfront chest, loins and limbs; four things long—neck, breast, fore-arm and croup; and four things short—pasterns, back, ears and tail.

A New Grass.

A New Grass.

larity, we now hear that after the Franco-Prussian war of 1870-71, in many districts of France a new vegetation sprang up, evidently the result of the invasion. It was believed that this vegetation would become acclimatized, but very few of the manufacture of the control of the contro few of the species introduced in this way appear likely to continue to flour-ish. In the departments of Loir and Loiret-Cher, of one hundred and sixty-three German species, at least one-half have already disappeared, and the sur-yiving species diminish in vigor each year. Scarcely five or six species appear to manifest any tendency to become acclimatized. Can any of our naturalists account for it.

-Old man Wheeler of Minnesota wants a divorce from his wife. She sent him down the cellar one night last week after a bottle of yeast. He got it and was trudging along up stairs, think-ing of nothing in particular, when the bottle exploded, searing Wheeler so that bottle exploded, searing wheeler so that he fell with one great whoop down in a soap barrel under the stairs. When they pulled him out he pranced around yelling "Cuss a wife; cuss yeast; cuss the whole of ye!" And the lawyers say he has got a good case.

VINEGAR BITTERS,—Dr. J. Walker, a regular practicing physician of California, has conferred a priceless boon upon mankind by the introduction of a "Bitters" compounded from herbs exclusively, which may be truly said to be superse ing all others, and is becoming a bitter dose indeed for the charlatana and quarks, on account of Hardine Breserve the freshness of the flowers.

Hardine Baskers. A charming and inexpensive home adornment may be made by using a basket constructed in the manner given above or by procuring a simil wire basket and lining it with colored tissue-paper, of various colors, nicely fringed; take a twe-pound cyster can, put a sweet potato in it, and fill it with water; place the can in the center of the basket, and procure from any florist some gay southern meas and place in the edge of the basket. In a short time the sweet-potato will send out a number of vines, which may be

have become a recognized "family emedy." and properly so.

Don't Hack, Hack, Cough, Cough!

Cough is a symptom by which various dis eased conditions of the throat, bronchial tube-and lungs manifest themselves. But whether it arises from the irritation produced in the throat and larynx by taking cold, from an attack of bronchitis, from incipient consumption, or from various other causes, nothing will allay it more speedily or cure it more permanently than Dr. Pierce's Golden Medical Discovery. It does not matter whether it be a recent attack, or a lingering cough, the Discovery is in either case equally well adapted for its relief and permanent cure. In fact, it will cure a cough in one-half the time neces sary to cure it with any other medicine, and it does it, not by drying it up, but by removing the cause, subduing the irritation, and healing the affected parts. No time should be lost in commencing the use of a proper medicine for the relief of a cough, for unless this course is pursued, serious and daugerous discase of the lungs is liable to result. Golden Medical Discovery is sold by all dealers in medicines. Ben't Hack, Hack, Cough, Cough !

By neglecting the precaution which common sense dictates, many fall victims to their own imprudence. We have seen the young and beautiful girl, the hope and pride of her parents—her cheek affished with anticipation, and her eyes beaming with the gavice and the sense of life—we have seen all this changed for a shroud by neglecting a common cold which had settled upon her lungs. It might have easily been cured if it had been attended to in time. Now, when your lungs are first diseased with the incipient stages of consumption, you should use Allen's Lung Balsam, which will relieve them without fail.

For sale by all medicine dealers.

Premature loss of the hair, which is so common now-a-days, may be entirely prevented by the use of Burnett's Coccaine. It has been used in thousands of cases where the hair was coming out in handfuls, and has never failed to arrest its decay, and to promote a healthy and yigorous growth. It is at the same time unrivalled as a dressing for the hair.

THERE are more than one thousand different kinds of pills in the United States. Some of them are worthless and injurious, others are good and beneficial. Old Dr. Pareons invented the best anti-bilious pill we ever saw or heard of. They are now sold under the name of Parsons' Purgative Pills.

WE understand that the whooping cough is quite preyalent in the towns around us; but that no cases have proved fatal. Some families use nothing but Johnson's Anodyne Liniment. Our Doctor, however, says a little ipleac, to produce vomiting, would be an ad-

egar Bitters are a purely Vegetable preparation, made chiefly from the nathe Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient related the cause of disease and the patient related the cause of disease. TERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a genth Purgative as weil as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VIV-EGAR BITTERS the most wonderful invigorant that ever sustained the sinking

No Person can take these Bittery according to directions, and remain long unwell, provided their bones are not de-stroyed by mineral prison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missonri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Suamer and Autumn, and remarkably so during sea-Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive de-angements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the darkcolored viscid matter with which the bowels are leaded, at the same time stimulating the secretions of the liver,

and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus fore-armed.

Dysnensic or Indication Mark

Dyspensia or Indigestion, Head-ache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Ernetations of the Stomach; Bad Taste in the Mouth, Billous Attacks, Palpitatation of the Heart, Inflammation of the Lungs, Pain in the region of the Kid-neys, and a hundred other painful symp-toms, are the offsprings of Dyspepsia. One bottle will preve a better guarantee of its merits than a lengthy advertise-

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, atc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronice

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Feyers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VIN-EGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetatr, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itoh, Scurfs, Discolorations of the Skin, Hamora and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the dise of these Bitters. of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthenimities will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of wo-manhood, or the turn of life, these Tonio Ritters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood when-

ever you find its impurities bursting through the skin in Piraples, Eruptione, or Sues; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when, Keep the blood pure, and the health of the system will follow.

will follow.
